Statewide Housing Plan Webinar

(Description provided by Oregon Housing and Community Services Department):

Oregon Housing and Community Services staff traveled around the state to learn how people and communities are being affected by the housing crisis. Come hear what we learned and how this information will impact the Statewide Housing Plan at a webinar presented by Shoshanah Oppenheim, Manager of the Statewide Housing Plan; Mari Valencia, Planner at EnviroIssues; and Martin Capos-Davis, Operations Director at Human Development Corporation.

During this webinar we will discuss:

- the themes we learned from our community conversations;
- the results of focus groups with low income Oregonians and agricultural farmworkers;
- an update on the statewide housing planning process.
