

STAY IN SIGHT

**RIDE CLEAR OF DRIVERS'
BLIND SPOTS.**

When you're
out of sight,
you're in danger.
So when you
ride in traffic,
always stay out
of the blind spots
of cars, trucks
and buses.

BLIND SPOTS:

Biker beware.

- **Always ride and stop** where the driver can see you.
- **Make eye contact.** If you can't see them, they can't see you.
- **It takes a split second** for a driver to make a sudden turn or lane change, so always be alert.

Blind spots vary by vehicle. Never assume the driver is aware of you.
