

# CITY GRANTS PASS CONSOLIDATED ANNUAL PERFORMANCE EVALUATION REPORT (CAPER) PY 2019-2020

Adopted May 19, 2021

Adopted: May 19, 2021 (Resolution No. 21-7043)

## CR-05 – GOALS AND OUTCOMES

### **Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)**

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

The City of Grants Pass is an entitlement jurisdiction that receives an annual allocation of Community Development Block Grant (CDBG) funds from the United States Department of Housing and Urban Development (HUD). As a recipient of CDBG funds, the City is required to prepare a five-year strategic plan that identifies and prioritizes community needs and establishes goals and objectives to meet those needs. This five-year plan is called the Consolidated Plan. Each year activities are funded to help meet community needs. Those activities are presented in the Annual Action Plan.

Each year the City is also required to provide the public and HUD with an assessment of its accomplishments towards meeting the goals and objectives identified in the Consolidated Plan. The report produced is called the Consolidated Annual Performance Evaluation and Report (CAPER). The CAPER evaluates achievements made by the City of the goals identified in the Annual Action Plan.

The Program Year 2019-2020 Annual Action Plan was the fifth year of activities implemented under the City's 2015-2019 CDBG program adopted in 2015. HUD allocated \$349,140 in CDBG funding for activities during PY 2019-2020 which began October 1, 2019. In March of 2020, a pandemic affected millions of people nationwide and on March 27, 2020 Congress passed legislation entitled The Coronavirus Aid, Relief, and Economic Security Act (CARES Act), Public Law 116-136, in response to the growing effects of the COVID-19 public health crisis. As part of the CARES Act, HUD received funds to be allocated for the Community Development Block Grant (CDBG) program. The City of Grants Pass received two rounds of CARES Act funding in the amounts of \$220,405 and \$252,464. Both sets of funds were incorporated into the City's 2019-2020 PY by Substantial Amendments.

Due to the pandemic many activities were put on hold for the 2019-2020 PY whether it was closing of businesses, closing of schools and childcare centers, or quarantining at home. Our recipients spent time reorganizing platforms and structures to accommodate the pandemic, therefore many activities for the 2019-2020 PY were delayed. Most of the CARES Act funds have been expended and the regular 2019-2020 PY funds are slowly being drawn down. City staff and its grant recipients who implement many of the activities listed in the Action Plan, began implementing projects in October of 2019, but slowed with the pandemic in March of 2020. The program year ended on September 30, 2020 with many projects behind in their reporting.

It is expected that any activities outstanding from prior years and PY 2019-2020 will be completed during PY 2020-2021. Many projects are waiting on construction plans, contractor bids, and completion of Environmental Reviews. All entities are back logged due to the pandemic, but we are focused on maintaining a communication with them to keep the projects moving. Accomplishments are shown in Table 1, below.

**Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)**

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee’s program year goals.

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected – Strategic Plan	Actual – Strategic Plan	Percent Complete	Expected – Program Year	Actual – Program Year	Percent Complete

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

**Assess how the jurisdiction's use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.**

The City of Grants Pass has allocated funding to address the Consolidated Plan priorities and objectives in the PY 2019-2020 Action Plan as listed below.

1. Emergency Housing Assistance: The Consolidated Plan identified the need to provide short-term financial assistance to those at risk of homelessness or the loss of utility services as a high priority to the community. The City partnered with the United Community Action Network (UCAN) to implement this program via UCAN's existing assistance network. It was estimated that the funds allocated to this activity would provide 5 individuals with short-term assistance; ultimately, the activity assisted 104 individuals for the program year. The majority of the households supported received COVID CV1 funds. The activity is still open with more COVID CV 1 and CV 3 funds to be distributed. The regular 2019-2020 PY is completed.
2. Homeowner Weatherization and Energy Efficiency: The Consolidated Plan identified the need to improve housing affordability, specifically through strategic weatherization upgrades aimed at reducing on-going utility bills, as a high priority. The City partnered with UCAN to implement this program, as this organization currently manages a weatherization program in connection with local utility providers and the Department of Energy. Limited use of this program was experienced during prior program years, and the activity was not implemented during the 2019-2020 program year due to the COVID pandemic. Assessing homes was put on hold until it was deemed safe to do on-site visits. Communication with UCAN and this activity is on-going and other weatherization projects are being researched by UCAN.
3. Microenterprise Education Assistance: The Consolidated Plan identified the provision of microenterprise education assistance as a high priority to the community. To meet this goal, the City partnered with the Small Business Development Center (SBDC) at Rogue Community College, with whom the City has worked on several similar projects in the past. The program provides a tuition waiver, funded by the City's CDBG program, to qualified LMI residents of Grants Pass. During PY 2019-2020, the SBDC provided assistance utilizing funds from the prior program year. The Coronavirus closed the RCC campus in March of 2020 thereby closing the microenterprise activity until the state deemed it safe to re-open the schools. Communication with RCC indicates the schools will open early 2021 and prior funds available will be used as well as current PY funds.
4. Teen Training Services: The Consolidated Plan identified the need to provide targeted assistance to LMI youth in the community that will foster economic opportunities for their future. The City partnered with the Boys and Girls Club of the Rogue Valley to provide tuition assistance to qualified LMI youth interested in participating in the Club's programming, which includes the recent addition of the Be Great by 8 initiative. The Club was able to provide assistance to 296 youth during the program year, far exceeding their goal of 75 youth assisted with CDBG funds. The facility had to re-organize their teen program during the 2019-2020 PY due to the coronavirus. The teen program was re-structured to accommodate 4th and 5th grade low income and at risk youth with distance learning and offered a safe place to stay at the facility. With the state opening more in the next few months, the Boys & Girls Club will be able to offer more with this activity.

The Boys & Girls Club completed their 2019-2020 PY. The club received two rounds of CDBG COVID funds to help with the coronavirus. With those funds, the Club was able to help 296 youths.

5. Maslow Project (operations): The Consolidated Plan identified the need to provide assistance to community youth who are currently homeless or at risk of becoming homeless. The Maslow Project provides school-based services for youths aged 0-21 that attend schools in Grants Pass. Maslow Project utilized City CDBG funds to provide services to homeless youth in Grants Pass. Maslow received two rounds of CDBG COVID funds to help with the coronavirus. Both the Maslow Project and HWAM have helped 414 youths and families during the pandemic.
6. Hearts With a Mission (operations): The Consolidated Plan identified the need to provide assistance to community youth who are currently homeless or at risk of becoming homeless. Hearts With a Mission (HWAM), a Medford-based non-profit that is licensed by the State of Oregon as a Child Caring Agency to provide services for homeless, runaway, and transitional living youth, ages 10-17, opened a new homeless youth shelter in Grants Pass during PY 2016-17. During PY 2019-2020 and due to the coronavirus, HWAM saw an increase in homeless youths and far exceeded the expected 150 heads on pillows. HWAM received two rounds of CDBG COVID funds to help with the coronavirus. Both the Maslow Project and HWAM have helped 414 youths and families during the pandemic.
7. Homeowner Rehabilitation: The Consolidated Plan identified the need to improve housing affordability, specifically through strategic rehabilitation projects aimed at addressing unmet rehabilitation needs for qualified LMI homeowners. These needs are above and beyond those that can be addressed through the weatherization program, and include repairs to the building envelope (roofing, siding, windows, etc.), systems (electrical, plumbing, HVAC, etc.), and the removal of architectural barriers. Preliminary work on this activity occurred during PY 2017-18, but no funds were expended. The City entered into an agreement with the Housing Authority of Jackson County at the beginning of PY 2018-19 to repair faulty sewer laterals at two of their affordable housing complexes in Grants Pass. Additionally, the City granted CDBG funds to Family Solutions to renovate two of their youth facilities in Grants Pass. These activities did not begin until PY 2019-20 and were completed in 2019.
8. Site Acquisition/Site Improvements: The Consolidated Plan identified the need to provide additional affordable housing units, and the strategic plan called for the use of program funds to either acquire a suitable site for the development of units, or the use of program funds to assist with necessary public infrastructure improvements to facilitate the development of affordable units. The City has a current project with Habitat for Humanity of Grants Pass in the development of additional housing units. Specifically, program funds are being allocated to Habitat for Humanity to install required frontage improvement that will enable them to subdivide the property for development. The activity did not begin during the PY 2018-2019 and more plans were submitted to the Planning Department in 2019-2020 but not yet approved. The usage of the funds will be reported in the 2020-2021 PY.
9. Daycare Assistance for MicroEnterprise Assistance: The Daycare Assistance activity was introduced in PY 2018-2019 in the hopes to help those Microenterprise individuals enrolled in the Microenterprise activity to have a safe place for their children while they are in training. As such the funds in the amount of \$4,000 were never utilized and the funds were re-allocated to the

Microenterprise activity in PY 2018-2019.

10. Makerspace Tuition/Membership Assistance: This activity was first added to the PY 2018-2019 and coordination with the local community college RCC began. RCC had planned on having an assigned area at the college for a Makerspace/Innovation Hub program. As the year progressed and state funds for RCC became limited, the program was initially put on hold and then in 2019 canceled. A new partner in the community is taking up the program and CDBG funds will be used in that partnership. Usage of CDBG funds for PY 2018-2019 and 2019-2020 will be available for this new partnership.
11. Special Economic Development: This activity was added to PY 2019-2020 to help youths in the school districts learn a vocation trade by pairing with local businesses. While the project was in a planning phase, the logistics did not come together for the 2019-2020 PY. The City plans to continue to work with the partners to bring this project to fruition during the 2020-2021 PY and work with the schools and businesses to have a viable program helping our youths.
12. ADA/Removal of Barriers: The City added this project in PY 2019-2020. Many elements of the City's infrastructure requires ADA compliance and several projects have been identified. No funds were expended in the 2019-2020 PY due to lengthy Environmental Reviews and delays due to the coronavirus. There are projects in progress and the City plans to complete them in 2021. New areas are being identified and will be under review in the coming 2020-2021 PY.
13. Senior Meals - CV1: The Meals on Wheels program administered through RVCOG received CV1 funds and used those funds for feeding 15,100 individuals with shelf stable meal boxes which covered two meals a day for seven days.
14. Options - CV1: Options received CV1 funds for help with telehealth and PPEs to prepare for, prevent and respond to the coronavirus. Options provided telehealth support to 6,325 individuals as well as PPEs for staff and clients.
15. Womens Crisis Support Center CV1: The Womens Crisis Support Team received funds to help with domestic victims with shelter, basic necessities, PPEs, transportation, and other COVID related items. 109 individuals were supported with the funds.
16. Welcome Home Oregon CV3: Welcome Home Oregon received funds to help individuals transitioning from incarceration to citizenship by providing housing, basic necessities, work ready clothing, work ready IDs and other items helping to prepare, prevent and respond to the coronavirus. Nine (9) individuals were supported with the funds.
17. YMCA of Grants Pass CV3: The YMCA of Grants Pass received CV 1 funds to help abide with state regulations regarding COVID-19. The YMCA was the only childcare available for first responders. The YMCA continues to offer childcare services today. To meet state requirements for the COVID-19 pandemic, the YMCA made changes to all their programs to prepare for, prevent and respond to the coronavirus. The YMCA provided support to 52 individuals as well as operational supplies, PPEs, and reorganizing the childcare programs, other programs and internal equipment to meet state coronavirus guidelines.

## CR-10 – RACIAL AND ETHNIC COMPOSITION OF FAMILIES ASSISTED

**Describe the families assisted (including the racial and ethnic status of families assisted).  
91.520(a)**

	<b>CDBG</b>
White	729
Black or African American	0
Asian	2
American Indian or American Native	26
Native Hawaiian or Other Pacific Islander	7
<b>Total</b>	<b>764</b>
Hispanic	53
Not Hispanic	711

Table 2 – Table of assistance to racial and ethnic populations by source of funds

### **Narrative**

During the 2019-2020 program year, the City’s CDBG program served 764 Grants Pass residents through its public services, housing rehabilitation, and economic development activities. Of those assisted, 95% self-identified racially as white. Ethnically, 7% of residents served identified themselves of Hispanic/Latino origin. Included within the regular count for PY 2019-2020 are numbers associated with COVID-19.

## CR-15 – RESOURCES AND INVESTMENTS 91.520(a)

### Identify the resources made available.

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	public – federal	349,140	152,255
Other	public – federal	472,869	346,146

Table 3 – Table of resources made available

### Narrative

Of the \$349,140 in funds available for expenditure during PY 2019-2020, \$349,140 was allocated for activities during the program year. Of the funds allocated, the City expended \$152,255 on eligible activities between October 1, 2019 and September 30, 2020. Of the \$472,869 funds available for COVID-19 relief, all funds were allocated for activities. Of the funds allocated for COVID-19 relief, \$346,146 of those funds were expended. The remaining funds for regular CDBG activities as well as COVID-19 relief activities are still committed to eligible activities and will be spent in the next program years.

### Identify the geographic distribution and location of investments.

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description
Citywide	100	100	Target area

Table 4 – Table of geographic distribution and location of investments

### Narrative

All CDBG funds allocated to the City are planned to be dedicated to activities that take place citywide. To achieve this, the City utilizes a low-moderate limited clientele process.

### Leveraging

**Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.**

The CDBG program has no requirement for a local match, and the City did not have any publicly owned land or property available to address the needs identified in the Consolidated Plan. That fact notwithstanding, recipients of CDBG funds from the City frequently use other resources to augment and expand programming. For example:

- The Boys and Girls Club of the Rogue Valley leveraged a total of \$59,049 in additional resources to augment funds obtained from the City.
- The Maslow Project leveraged a total of \$90,743 in additional resources to provide services for homeless youth.
- Hearts With a Mission leveraged \$305,433 in additional resources to provide services for homeless youth.

## CR-20 – AFFORDABLE HOUSING 91.520(b)

**Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.**

	One-Year Goal	Actual
Number of Homeless households to be provided affordable housing units	0	0
Number of Non-Homeless households to be provided affordable housing units	10	55
Number of Special-Needs households to be provided affordable housing units	0	0
<b>Total</b>	<b>10</b>	<b>55</b>

Table 5 – Number of households

	One-Year Goal	Actual
Number of households supported through Rental Assistance	5	28
Number of households supported through The Production of New Units	0	0
Number of households supported through Rehab of Existing Units	5	27
Number of households supported through Acquisition of Existing Units	0	0
<b>Total</b>	<b>10</b>	<b>55</b>

Table 6 – Number of households supported

### **Discuss how these outcomes will impact future annual action plans.**

This year's outcomes will have a direct impact on future annual action plans as the coronavirus delayed so many activities due to closures of schools and businesses. The City incorporated the CARES Act funds into the 2019-2020 PY, thereby adding to the tracking of the numbers. The partners within the community strived to overcome the obstacles of the virus by implementing safety features and protecting the public. With closures, the CDBG funding was not expended as expected during a normal PY. The CARES Act relief CDBG funds helped to alleviate some of the difficulties, however, expending both the CV funds and the regular CDBG funds has been a challenge. Most of the CARES Act Relief funds have been expended and will continue in the next few program years. The regular PY CDBG funds will carry over into the next few annual action plans as it is expended. The City will continue to actively work on affordable housing and housing rehab projects in the upcoming project years as well as process those funds that are still to be expended.

**Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.**

<b>Number of Households Served</b>	<b>CDBG Actual</b>	<b>HOME Actual</b>
Extremely Low-income	43	0
Low-income	10	0
Moderate-income	2	0
<b>Total</b>	<b>55</b>	<b>0</b>

Table 7 – Number of households served

### **Narrative Information**

During PY 2019-2020, the City's CDBG program assisted 55 households through emergency rental assistance and/or the rehabilitation of existing income-restricted housing units. All households were classified as extremely low-, low-, or moderate-income.

With the CARES Act relief funds the City's program assisted 40 additional households through emergency assistance. Of those, 15 were extremely low income, 4 were low income and 21 were moderate income.

## CR-25 – HOMELESS AND OTHER SPECIAL NEEDS 91.220(d,e); 91.320(d,e); 91.520(c)

**Evaluation of the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:**

### **Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs**

As described in the Consolidated Plan, the City has been working with local Continuums of Care to reach the local homeless population during Program Year 2019-2020. This year saw the continuation of the partnership with the Maslow Project, a local agency whose sole purpose is to reach homeless youth, aged 0-21, assessing their individual needs, and connecting them to community resources. Additionally, Hearts With a Mission partnered with the City to utilize CDBG funds for shelter operations and shelter renovations. The City has also been working with UCAN, an agency that works directly with homeless persons in the community, to prevent homelessness resulting from eviction.

### **Addressing the emergency shelter and transitional housing needs of homeless persons**

One activity in the Program Year 2019-2020 Action Plan addresses the emergency shelter and transitional housing needs of local homeless persons, the partnership with Hearts With a Mission, a local youth homeless shelter. The City provided CDBG funds to support operations at their facility. In addition, the City is in constant communication with UCAN for avenues for a permanent emergency shelter as well as working toward development of transitional housing for the homeless.

### **Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs**

The Consolidated Plan identifies the prevention of homelessness as a high priority to the community and dedicates CDBG funding to local agencies that provide emergency housing assistance to those at risk of becoming homeless. To that end, the City partnered with UCAN during Program Year 2019-2020 to provide emergency housing assistance to households at immediate risk of eviction or the disconnection of utilities due to financial emergencies. UCAN was able to provide assistance to 27 households and prevent the eviction or termination of utility services for 77 individuals during the Program Year.

The City also partnered with the Maslow Project during PY 2019-2020 to provide outreach and services to homeless youth aged 0-21. With assistance from the City, Maslow Project was able to provide additional services to 325 homeless school children during the program year. Combined with Hearts With a Mission, the City's CDBG COVID funds assisted an additional 89 youths.

The City does not have any additional information on individuals that are or have been discharged from publicly funded institutions, nor does the City have any direct information regarding those who are receiving assistance from public or private agencies.

**Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again**

The Consolidated Plan identifies the need for transitional housing as a high priority. No resources were dedicated during PY 2019-2020 to directly provide additional transition housing opportunities. Resources were dedicated to providing additional access to the Hearts With a Mission shelter for homeless youth and the Maslow Project enabling the funds to be used for homeless youth and their families to find shelter. Funds were allocated to the Womens Crisis Support Team helping victims of domestic violence with their shelter.

## CR-30 – PUBLIC HOUSING 91.220(h); 91.320(j)

### **Actions taken to address the needs of public housing**

There is no public housing in Grants Pass and no activities associated with public housing are included within the Consolidated Plan.

### **Actions taken to encourage public housing residents to become more involved in management and participate in homeownership**

N/A

### **Actions taken to provide assistance to troubled PHAs**

N/A

## CR-35 – OTHER ACTIONS 91.220(j); 91.320(i)-(j)

### **Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)**

The City's land use policies support affordable housing, including provisions for a wide array of housing types to meet diverse housing needs. Despite that, there has been little response from the local development community in the construction of additional affordable housing units. Ultimately, the City Council established a standing Housing Advisory Committee comprised of housing advocates and providers and supported by City staff, which is currently seeking a multi-faceted solution to address the affordable housing crisis facing our community. The Committee has made several recommendations to the Council on actions that the City might take to promote new residential development. These recommendations, which include actions like system development charges (SDC or impact fees) deferrals, establishing a construction excise tax, and relaxing accessory development unit development standards, are under consideration by the City Council.

### **Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)**

As described in the Program Year 2019-2020 Action Plan, the City worked with local agencies, including UCAN, the Boys and Girls Club, Family Solutions, and the Maslow Project to address obstacles to meeting the needs of underserved residents of Grants Pass. The City expended its reach during the Program Year while developing its priority activities for the upcoming 2020-2021 Action Plan.

### **Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)**

The majority of activities undertaken as part of the City's CDBG program for PY 2019-2020 did not have an impact on lead-based paint exposure. However, the City does provide information on lead-based paint in the Community Development office at City Hall. In 2018, one project involved the repainting of Talsunne Safe House, a single dwelling originally constructed before the World War I. This project required lead-based paint safe practices due to the building's age and the age of those residing on-site. Talsunne was closed during the project, and as required by Oregon laws, the contractor hired followed LBP safety precautions. Future projects that involve lead-based paint will adhere to HUD guidelines.

### **Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)**

During the 2019-2020 program year, the City took the following actions to reduce the number of poverty-level families:

- Provided CDBG funds to UCAN that assisted 28 households and 95 individuals with emergency housing assistance to avoid eviction or the disconnection of utility services due to short-term financial emergencies.
- Partnered with the Boys and Girls Club of the Rogue Valley to provide free access to their

programming. Funds from the City's CDBG program allowed the Club to reach 163 youth from LMI families.

- Partnered with the Maslow Project and Hearts With a Mission to provide outreach and supportive services to 414 homeless youth and those attending schools in Grants Pass.

### **Actions taken to develop institutional structure. 91.220(k); 91.320(j)**

The Program Year 2019-2020 Action Plan included the following activities aimed to develop and improve institutional structures:

- City staff participated in several webinars and other online trainings provided by HUD necessary to implement and develop CDBG programming;
- City staff kept local elected officials apprised of CDBG program activities throughout the Program Year; and
- City staff continued collaboration with local stakeholders and advocacy groups during the Program Year.

### **Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)**

The City has established relationships with local housing and social service agencies that were maintained during the Program Year. Specifically, the City undertook the following actions:

- Attended monthly meetings of the Josephine County Housing and Community Development Council, the PHA that serves the needs of community members with its Section 8, VASH, and other HUD-based housing assistance programs; and
- Established a standing Housing Advisory Committee, consisting of housing stakeholders and backed with City staff, to assist the City Council in making policy changes that will address the community's affordable housing crisis.

### **Identify actions taken to overcome the effects of any impediments identified in the jurisdiction's analysis of impediments to fair housing choice. 91.520(a)**

During PY 2015-16 the City engaged a qualified consultant to assist in data collection, public outreach and involvement, analysis, and recommendations to overcome institutional barriers to fair housing choice. The City Council reviewed the final product and approved its adoption. By and large, very few impediments to fair housing choice were identified, and most impediments might be resolved through continued outreach and education, particularly to the rental community, which is where the majority of impediments were observed. Public sector impediments identified included a difficulty siting publicly assisted housing developments, the need for ongoing outreach and education on the subject of fair housing laws, and a possible inconsistency in zoning codes and definitions relating to "family."

During PY 2016-17, the City Council established a Housing Advisory committee, which is engaging the local housing development community, and providing needed educational opportunities that will seek to address the above referenced deficiencies in fair housing.

During PY 2017-18, City staff worked with the Housing Advisory Committee to research possible solutions to housing access and choice. Several recommendations have been brought to the City Council for additional comment and consideration.

During PY 2018-19, City staff continued working with the Housing Advisory Committee on solutions to housing access and choice. City staff also collaborated with other communities in southern Oregon, under guidance from the Fair Housing Council of Oregon, on the identification of fair housing issues that are present in the region.

During PY 2019-2020, City staff continued working with the Housing Advisory Committee and working with other communities for solutions to housing issues for the Grants Pass community. This is an ongoing process, and all efforts are being made to address housing problems and eliminating impediments to fair housing choice.

## CR-40 – MONITORING 91.220 AND 91.230

### **Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements.**

The City, with input from HUD, developed a CDBG grant recipient agreement in accordance with applicable federal requirements for the 2015-16 program year. This agreement structure set up the programmatic requirements and delivery expectations of the City's block grant program and established a quarterly reporting and reimbursement process that will allow City program managers early opportunities to work with grant recipients should programmatic issues occur.

In September 2017, HUD staff conducted an on-site monitoring of City CDBG programs from PYs 2015-16 and 2016-17 to determine performance and compliance with applicable federal regulations. HUD staff identified two findings and three concerns, which the City has addressed. Additionally, City staff observed proper monitoring techniques that will be utilized while conducting programmatic reviews of CDBG subrecipients.

No minority-owned businesses were identified in the 2019-2020 Program Year. Recipient agreements require good-faith efforts to provide minority and women-owned businesses an opportunity to participate in the performance of the contract.

### **Citizen Participation Plan 91.105(d); 91.115(d)**

#### **Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.**

The City's Citizen Participation Plan requires a 15-day comment period for all yearly CAPERS. Noticing of the draft CAPER public comment period and public hearing before the Council to adopt the CAPER is provided to the local newspaper, The Daily Courier, and noticing runs a 14-day timeframe. A draft of the CAPER is provided at the City's Community Development Department, the local library and on the City's webpage. Copies are available as well. Public comment is also taken during the City Council hearing to adopt the CAPER.

## CR-45 – CDBG 91.520(c)

### **Specify the nature of, and reasons for, any changes in the jurisdiction’s program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.**

Grants Pass, like many other smaller CDBG grantees, sees the most efficient method of implementing program objectives via programmatic partnerships stymied by regulatory caps on the use of CDBG funds for public service activities. Annual CDBG allocations are not large enough to conduct many brick-and-mortar projects and, without a community-based development organization active in Grants Pass, use of CDBG funds to develop new units of affordable housing is particularly difficult. Demand for CDBG funds for public service activities, such as emergency housing and homeless support, far outpaces the 15% cap imposed by HUD regulations. The City is working with its community partners to fully understand reasons why resources are being underutilized and what actions the City might take to overcome any obstacles.

At this time, there have not been any substantial changes to the City's program objectives; however, the City is preparing to explore modifying its solicitation process, particularly for construction projects, as part of the next Consolidated Planning process. It is hoped that seeking partners with fully ripe development plans will help the City avoid delays in project delivery and result in a timelier expenditure of CDBG funds.

The public services grants for the 2019-2020 PY were delayed somewhat due to the coronavirus. Closure of businesses and schools stalled normal usage of CDBG funds, and the CARES Act infused additional CDBG funds into the 2019-2020 PY thereby complicating delivery of all CDBG funds in a timely manner. All partners within the community were tasked with following state safety guidelines and restructuring their programs. Having experienced this pandemic emergency, the City improved its Citizen Participation Plan to include emergency language for future emergencies. The City is also better prepared to address usage of CDBG funds and implementing such funds should another emergency occur in the future.

### **Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?**

No

### **[BEDI grantees] Describe accomplishments and program outcomes during the last year.**

GRANTS PASS OREGON
