

City of Grants Pass Work Plan 2016

Why a Work Plan

The work plan reflects the strategic planning process done by the City Council. Each year, the Council sets the direction of the organization based on the needs of its citizens. This is a living document and will be updated as progress is made and/or as goals change.

A work plan defines performance expectations and provides a framework for how we will achieve our organizational goals. To help achieve our goals and promote our successes the City of Grants Pass utilizes Specific, Measurable, and Achievable, Resource and Time-bound (SMART) objectives and actions.

S.M.A.R.T.S.

Developing sound goals is critical to managing our performance. Having a SMART Work Plan:

- Establishes direction for task and/or projects
- Clarifies expectations
- Clarifies resources required to meet objectives
- Identifies the results of efforts
- Achieves higher levels of performance
- Corrects performance deficiencies
- Increases ability to take pride and satisfaction in our achievements

Specific: Objectives should be simplistically written and clearly define an outcome. (What, Why, How)

Measurable: Objectives should be measurable so that you have tangible evidence that you have accomplished the goal. Usually, the entire goal statement is a measure for the project, but there are usually several short-term or smaller measurements built into the goal. Measures should include numeric or descriptive measures that define quantity, quality, etc. Focus on elements such as observable actions, quantity, quality, cycle time, efficiency, and/or flexibility to measure outcomes not activities.

Achievable and Assignable: Objectives should be achievable and assignable and within the department and staff member's control or influence and they must possess the appropriate knowledge, skills, and abilities needed to achieve the goal. Consider authority or control, influence, resources and work environment support to meet the goal. You can meet most any goal when you plan your steps

wisely and establish a timeframe that allows you to carry out those steps. As you carry out the steps, you can achieve goals that may have seemed impossible when you started. On the other hand, if a goal is impossible to achieve, you may not even try to accomplish it. Achievable goals motivate employees; impossible goals demotivate them.

Resources: Objectives should have a measure of resources required to complete task. This may include hard dollars, grant funds, in-kind services, staff time etc.

Time-bound: Objectives should identify a definite target date for completion and/or frequencies for specific action steps that are important for achieving the goal. How often should the staff member work on this assignment? By when should this goal be accomplished? Incorporate specific dates, calendar milestones, or timeframes that are relative to the achievement of another result (i.e., dependencies and linkages to other projects).

To achieve our goals we have defined specific areas of focus and activities through objectives and actions. The following is a list of the Council's top objectives and actions:

- Partner with community to provide homeless youth shelter services
- Allen Creek Sports Park Complex (Funding)
- Maintain necessary criminal justice infrastructure (jail, DA, juvenile)
- Prepare funding package to resolve sewer issues in Spalding Park
- Light up downtown in alleyways and railroad tracks
- Expand Wastewater Plant
- Develop landscaping and parking at Park Street
- Build new Water Plant
- Explore feasibility of Fire District
- Develop the park area west of the Caveman Bridge

Objectives and actions are prioritized to show weight of importance by number of asterisks (*).
