
Program: Utilities/Solid Waste – Capital Construction

Services Delivered:

This activity provides for the planning, engineering and construction of solid waste facilities.

FY'15 Anticipated Accomplishments & Corresponding Council Goal - Strategic Plan Item:

Maintain, Operate and Expand Our Infrastructure to Meet Community Needs

- This fiscal year staff will continue to implement the Record of Decision (ROD) and continue to monitor the remediation programs.

Budget Highlights:

The project listing shows resources across the columns. Columns show the “Actual resources through FY’ 13”; the re-assessed resource needs of projects using current data for the “Revised FY’ 14” column, guiding our “Adopted FY’ 15” and resources estimated “Through FY’ 15”. We have “Future Years” and “Total Project” columns for each project.

The individual project pages describe the project, the need, future and ongoing costs, and the total project cost. The tables show when and where the money is budgeted to come from and the expenses incurred and budgeted to incur through completion.

FY'14 Activity Review:

Continued implementation of the ROD and monitoring of the remediation programs.

Program: Utilities/Solid Waste – Capital Construction

Project	LA0000	General Projects
----------------	---------------	-------------------------

Project Description

This project accounts for small miscellaneous projects, closed projects and projects that are in the process of starting up. Fund balances and miscellaneous expenditures that are not attributable to a specific project are accounted for in this project. Resources from a large variety of sources are distributed from this project to other active projects.

Need for Project

This Project allows for tracking of fund balances and miscellaneous expenditures.

Estimated Total Project Cost: \$ No true cost is associated with this project.

Project	LA2640	Remediation
----------------	---------------	--------------------

Project Description

This project funds the activities required to mitigate the groundwater contamination and other environmental problems associated with the Merlin Landfill. The ROD was issued from the Department of Environmental Quality in FY'05. Actions required under the Record of Decision (ROD) include site reforestation, supplying city water, deed restrictions, and continued monitoring.

Need for Project

The remediation project is required as an outcome of the D E Q's Consent Order Record of Decision (ROD). This ROD requires the City to take specific remediation actions to mitigate the environmental impacts of the landfill. In this fiscal period we will continue with fuels reduction, the supply of water to the adjacent properties and well monitoring.

Estimated Total Project Cost: \$3,043,000

Resources

	Actual Through FY'13	FY'14 Adopted	FY'14 Revised	FY'15 Adopted	Through FY'15	FY'16 Projected	Future	Total Project

Program: Utilities/Solid Waste – Capital Construction

Project	LA4490	Melson Lot Line Adjustment
----------------	---------------	-----------------------------------

Project Description

Several years ago a house was built across the Merlin Landfill property line. About one half of the house is on the Landfill property. The City has invested considerable survey and legal work to date attempting to resolve the problem. An agreement was reached to adjust the property line and swap ‘property for property’. The property owner, Dwight Melson, does not have the funds to pay for any of the work, past or future. In order to facilitate the lot line adjustment, the agreement provides that the City will advance the work and the costs associated with this work, and Melson will sign a promissory note in the City’s favor. The note will cover both past and future costs. The note, including interest, will be secured by a deed of trust against the Melson property, and it will be paid upon sale of the property.

Need for Project

This project will account for the cost associated with a lot line adjustment and other work necessary to resolve the encroachment of Melson’s home.

Estimated Total Project Cost: \$20,000

Resources

	Actual Through FY’13	FY’14 Adopted	FY’14 Revised	FY’15 Adopted	Through FY’15	FY’16 Projected	Future	Total Project

Project LA4691 Clean Up Program

Project Description

This project will fund the clean-up program that will be run in conjunction with the Enforcement Program. It will allow the City to use a team of public safety personnel, building personnel and an attorney to enforce laws such as nuisance, dangerous buildings and erosion.

The ongoing revenue is based on anticipated interest on existing balances. The interest rate is assumed to be the current pooled cash average.

Need for Project

The City receives complaints from neighbors frustrated with problems in their neighborhoods. They are concerned about trash in yards, abandoned vehicles and dangerous buildings. The City has been unable to provide the response these citizens are requesting. This program will be a major improvement.

Estimated Total Project Cost: \$30,000 / year

Resources
